

IAML Membership Fees by Country GDP (2026)

Completed by Dr Wilhelm Delport (IAML Outreach Committee)

IMS Sources

Calculations are based on the four categories and GDP values as listed in the [IMS Membership Fee](#) table, which was last updated in December 2024.

The Outreach Committee will update the IAML table accordingly when a new version of the IMS table becomes available.

Countries Included

As decided at the meeting of 28 October 2025, we will use the names on the list of [United Nations Member States](#).

This is different from the IMS table, which includes territories and politically contested areas such as Gibraltar, Guam, Hong Kong, etc, which are not UN Member States. A draft list of [excluded regions/territories](#) has also been completed.

If any further areas, territories, countries should be included – for example, UN non-member observer states, etc – then it will be added on the IAML Board's request.

Fee Structure per Category

The following categories and membership fee percentages were applied throughout for the [full list of countries](#).
